Good day Captain

Based on the pending forecast and the information that is available at this time regarding Hurricane Gonzalo the Placentia Bay Weather Committee has decided that there will be no shipping activity within Placentia Bay. The Serifos is due at 1600hours today, since vessel does not have enough time to load and safety proceed out Placentia Bay vessel will remain outside port limits until further notice. All other vessels that are en route will be notified to remain outside until hurricane passes; the committee will meet again 1030LT Sunday to review the sea conditions, I will update everyone at that time.

We will keep you advised.

Please always respond to our operations address: opscbc@canadianmaritime.nf.ca

Best regards
Rodney Short
